## CIRCULAR

Students, faculty, and staff who live close to the college are encouraged to commute by bicycles because they are smoke-free, in order to adopt environmentally friendly activities on campus. All are urged to utilize the trash cans in order to improve the campus' cleanliness. Cooperation from the academics, staff, and students is requested.

## CIRCULAR

It has been decided to allow students to go only by public transport with immediate effect in order to make our campus more "Eco Friendly" by minimizing noise and air pollution as well as automobile congestion on campus. Faculty and employees are urged to adopt battery-powered vehicles and vehicle sharing, and are also asked to limit their use of motorized vehicles.

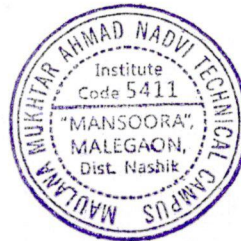

There is a request for cooperation from the faculty, staff, and students.

## CIRCULAR

Regarding parking, it is requested that staff employees and students who commute by bicycle leave their bicycles at the two-wheeler parking area next to the college entrance. It is required that staff employees who commute on four wheelers park their vehicles to the right of the main entrance. Cooperation from the academics, staff, and students is requested.

## Notice

### **Subject: Plastic-Free Campus Initiative**

Dear Engineering Staff and Students,

We hope this notice finds you well. We are excited to announce a significant step towards environmental sustainability and responsibility – the launch of our "Plastic-Free Campus" initiative at Maulana Mukhtar Ahmed Nadvi Technical Campus.

Starting 25/08/2023, we are making a concerted effort to reduce the use of single-use plastics and promote eco-friendly alternatives throughout our campus. We believe that as a community, we can collectively contribute to a cleaner and greener environment for ourselves and future generations.

Here's how you can join us in this endeavor:

**Bring Your Own (BYO):** Kindly bring your reusable water bottles, coffee cups, and food containers to campus. Our aim is to minimize the use of disposable plastic bottles, cups, and cutlery.

**Refill Stations:** We will be setting up water refill stations across the campus to make it convenient for you to refill your bottles and reduce the need for plastic water bottles.

**Say No to Plastic Bags:** Embrace cloth bags or reusable totes for your daily needs. Let's eliminate the use of plastic bags on our campus.

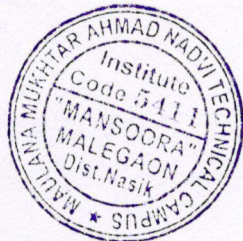

**Awareness Programs:** We will be organizing workshops, talks, and campaigns to raise awareness about the harmful effects of plastic on the environment and ways to reduce its usage.

**Recycling Stations:** Proper waste segregation and recycling are essential components of our initiative. Keep an eye out for designated recycling bins across the campus.

**Collaboration:** We encourage you to share your ideas for further reducing plastic use and enhancing sustainability on campus. Let's work together to make a lasting impact.

We believe that small changes can lead to significant results when everyone participates. Let's take pride in being a part of a Plastic-Free Campus and setting an example for others to follow.

Thank you for your cooperation and support. Let's make a positive change together!
