

REPORT ON TREE PLANTATION

Tree plantation program was organized at Maulana Mukhtar Ahmad Nadvi technical campus, through NSS unit on. Tree plantation program was held in our college campus on 12/12/2022 at 12:19 PM.

Around Thirty students from the third year and second year class conducted under the guidance of Prof. Shahzad Mahvi with collaboration of NSS body. Volunteers of our Department were assembled at MMANTC campus, Malegaon on 12/12/2022. Program coordinator Prof. Shahzad Mahvi our principal sir to invite the program.

Tree plantation is the act of planting trees in specific areas for environmental, social, and economic benefits. It helps combat climate change, improve air quality, conserve soil, and enhance biodiversity. It also provides shade, beautifies landscapes, and can boost local economies. Successful tree planting involves choosing suitable species, proper site preparation, and ongoing maintenance. It's an essential component of sustainable environmental conservation and community development.

Tree Plantation Derive At MMANTC College Campus

(Under the guidance: Prof. Adeel Ansari)

About Tree Plantation

On 28th July 2019, our college successfully completed the event of Tree Plantation under the guidance of Prof Adeel Ansari at college campus. Trees are the foremost source for producing the oxygen in environment, they helps to reduce the level of CO₂. As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees is become one of the most important aspects today.

It aims to increase to increase awareness of the natural resource, ensuring a healthy productive and sustainable environment. Prof Adeel Ansari encouraged students to plant more trees and take care of their plantation thereafter.

This awareness programs are key factors of encourage citizens to protect environment by planting trees. Students showed great enthusiasm in planting then on the day of "WNCD" and they knew their hard work recharge ground water, prevents soil erosion.

Inauguration Function:

The event was begun with the welcome speech by the HOD of Civil Department, Prof. Naveed Mirza at that time he advised the volunteers to think differently for the society, to make positive changes and to make improvement.

The objectives of tree plantation:

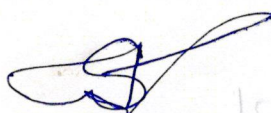

That each student should plant one tree and also nurture that tree during his or her stay in College campus. All students of MMANTC who are very interested about this kind of social activities have been directed to plant tree in MMANTC Campus on the occasion of world Nature Conservation Day.

MMANTC students have planted trees of various varieties like Neem, Shisham, Nilgiri, Kanchan a total of 50 saplings were planted in college campus. These different varieties of trees have been planted in different areas of MMANTC campus.

Plant Saplings provided to students by the MMANTC

Tree Plantation Report

Organized by Civil Engineering Department
Event Date: August 18, 2018
Coordinator: Prof. Md Junaid

Introduction:

The Civil Engineering Department of MMANTC proudly organized a momentous tree plantation event on August 18, 2018. This initiative was driven by our unwavering commitment to environmental sustainability and the belief that each tree planted is a step closer to a greener, healthier planet.

Participants:

This event brought together an inspiring coalition of dedicated faculty members, passionate students, and esteemed members of the local community. Our heartfelt appreciation goes to **Mr. Md Junaid**, whose exceptional coordination ensured the event's resounding success.

Execution:

August 18, 2018, marked a day of meaningful action. Participants gathered at the designated site, where they were enlightened about the profound impact of their efforts. 10 saplings, comprising native were carefully planted. The event also featured educational sessions focusing on tree care and the imperative role of environmental conservation.

Environmental Impact:

Our collective efforts are set to make a substantial impact on the environment. These trees will contribute to improved air quality, the sequestration of carbon dioxide, and the creation of vital habitats for local wildlife.

Awareness and Education: (Talk By HOD of Civil Department)

The event's educational sessions were instrumental in imparting knowledge about the pivotal role of trees in mitigating climate change and fostering sustainability. Participants left with a deeper understanding of their role in preserving the natural beauty that surrounds us.

Challenges and Solutions:

Despite facing unexpected inclement weather, the unwavering commitment of our participants, coupled with the provision of protective gear, ensured the seamless progress of the event.

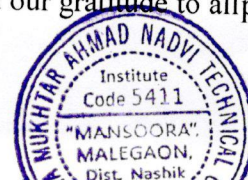

Future Plans:

The Civil Department remains steadfast in its commitment to environmental initiatives. We plan to establish a regular schedule for tree plantation drives and further integrate sustainability principles into our curriculum, fostering a culture of environmental stewardship among our students.

Acknowledgments:

Our heartfelt thanks extend to Mr. Md Junaid, the event coordinator & HOD of Civil Department, whose dedication was pivotal in realizing this event's success. We also extend our gratitude to all participants and the local environmental organizations that supported this endeavor.

Conclusion:

In conclusion, the tree plantation event organized by the Civil Engineering Department of MMANTC on August 18, 2018, stands as a testament to our commitment to a greener, more sustainable future. This event has not only enriched our campus with greenery but has also sown the seeds of environmental responsibility in our students and faculty. We eagerly anticipate a future filled with even more impactful initiatives.

Please feel free to use this report as needed, and make any further adjustments or additions according to your requirements.
